CVR Central Vietnam Realty

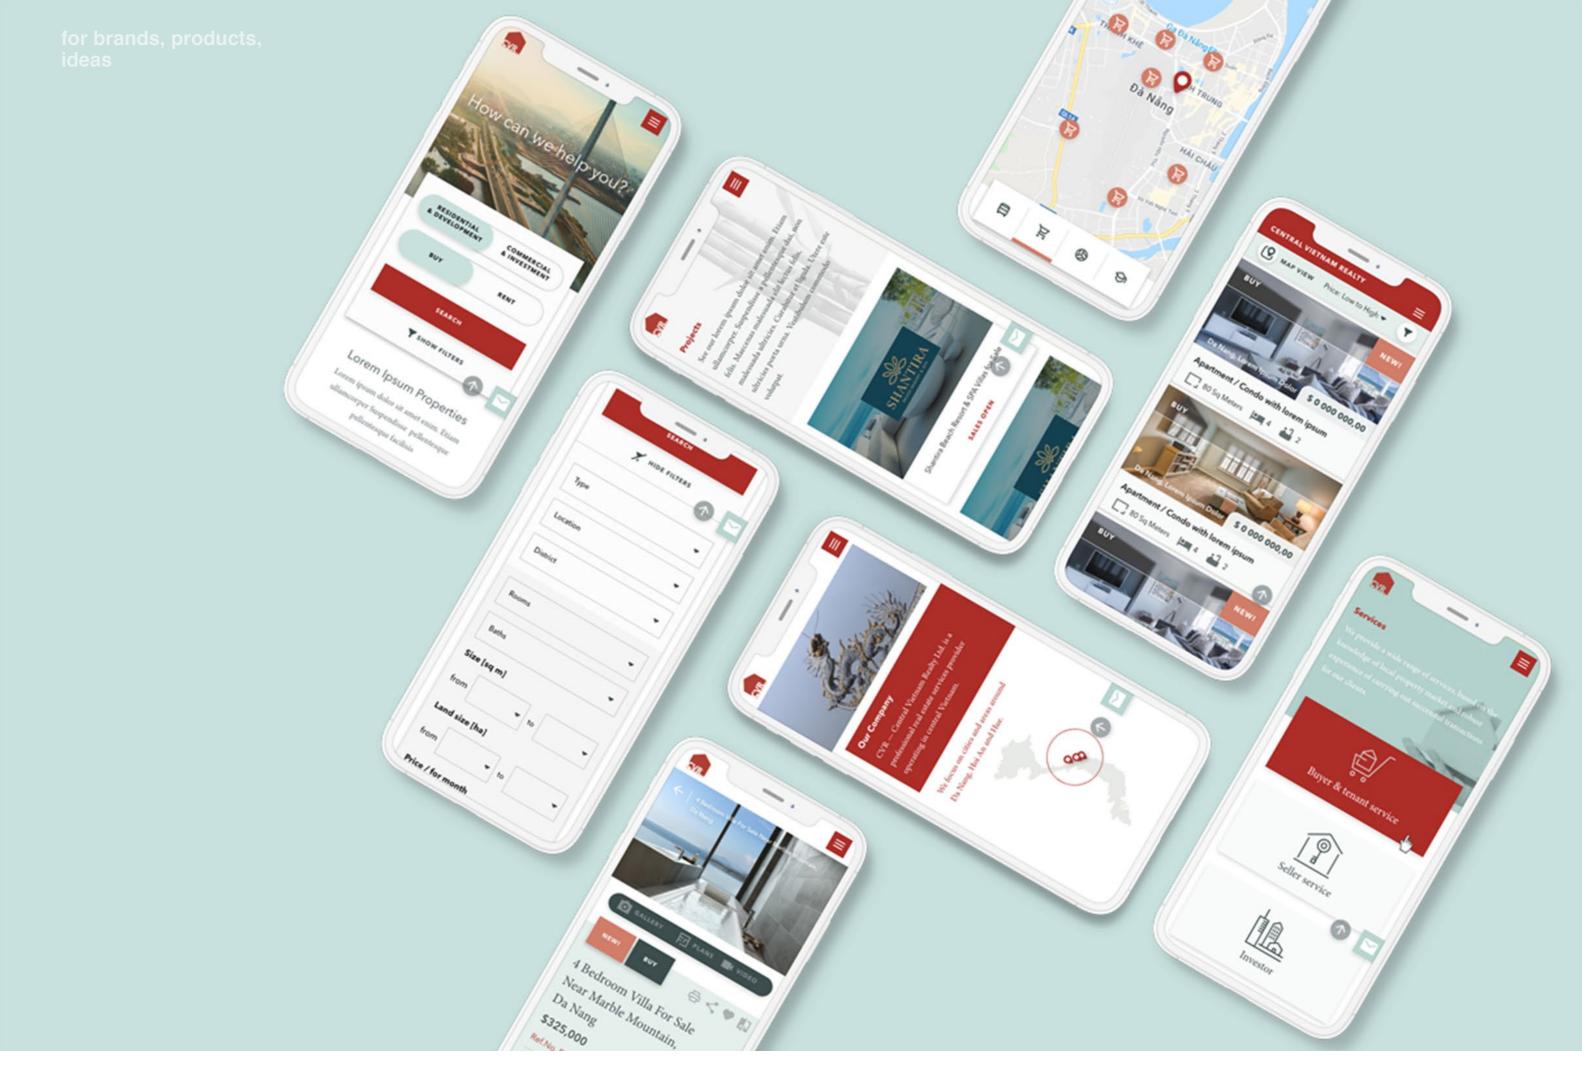

Do you want to buy or rent a property in Vietnam?

The Central Vietnam Realty website is the best place to start your journey. The implementation of this project assumed the creation of a tool that is not only convenient and intuitive for the user, but also takes into account the handling of business processes on the client's side.

The Polish National Radio

The National Polish Radio is the largest public radio published with over 97 years of history. We have the pleasure to cooperate with the Polish Radio for a long time. One of our recent fruits of work is an advanced web application, thanks to which the Polish Radio listeners can conveniently listen to their favorite radio podcasts.

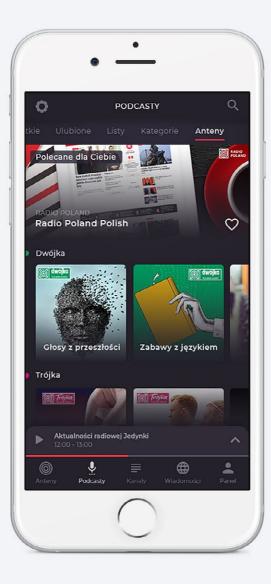

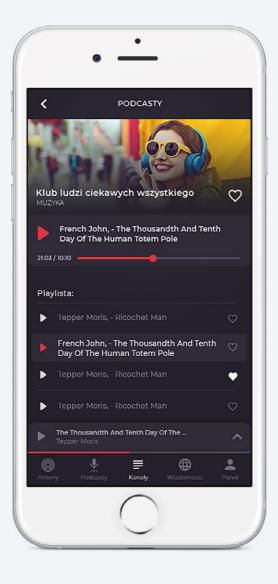

The Polish National Radio / Podcasts

This public entity has chose our team to create a platform with more than 100 podcast channels. The Polish Radio carries a great history and a large library of spoken content resources. Podcasts give all generations the chance to experience content outside the regular airtime. It's like giving a second life to every single piece of content from throughout history!

It is a great feeling to know that everyday, many people are using the app we've developed

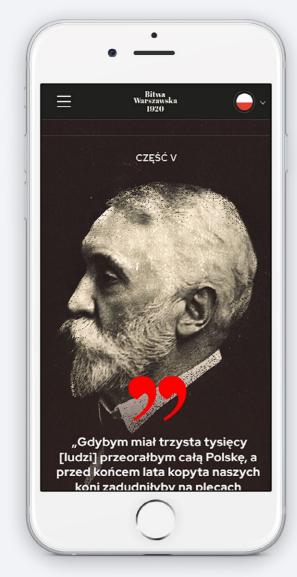

The 1920 Battle of Warsaw

The Battle of Warsaw is considered to be one of the most important wars in world history. Our paramount objective was to create an entirely immersive experience for the user. Technology was our ally in achieving this. We told a virtual story about the 1920 Battle of Warsaw with hundreds of pictures, audio and video materials.

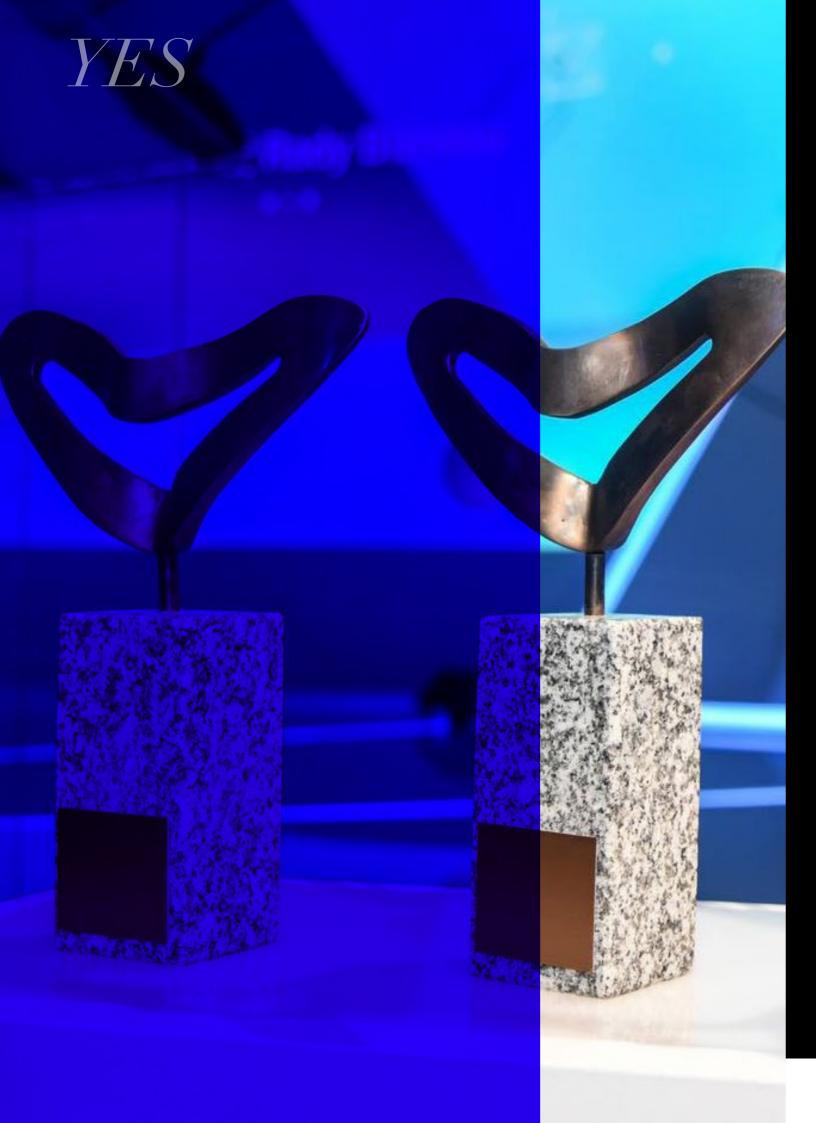

we bring static and visual assets to life via technology

The Polish Business Roundtable

It is the third time that we have cooperated with the Polish Business
Roundtable in organizing the prestigious PRB award. We were
responsible for the implementation of the web application for managing,
evaluation and selection processes of candidates.

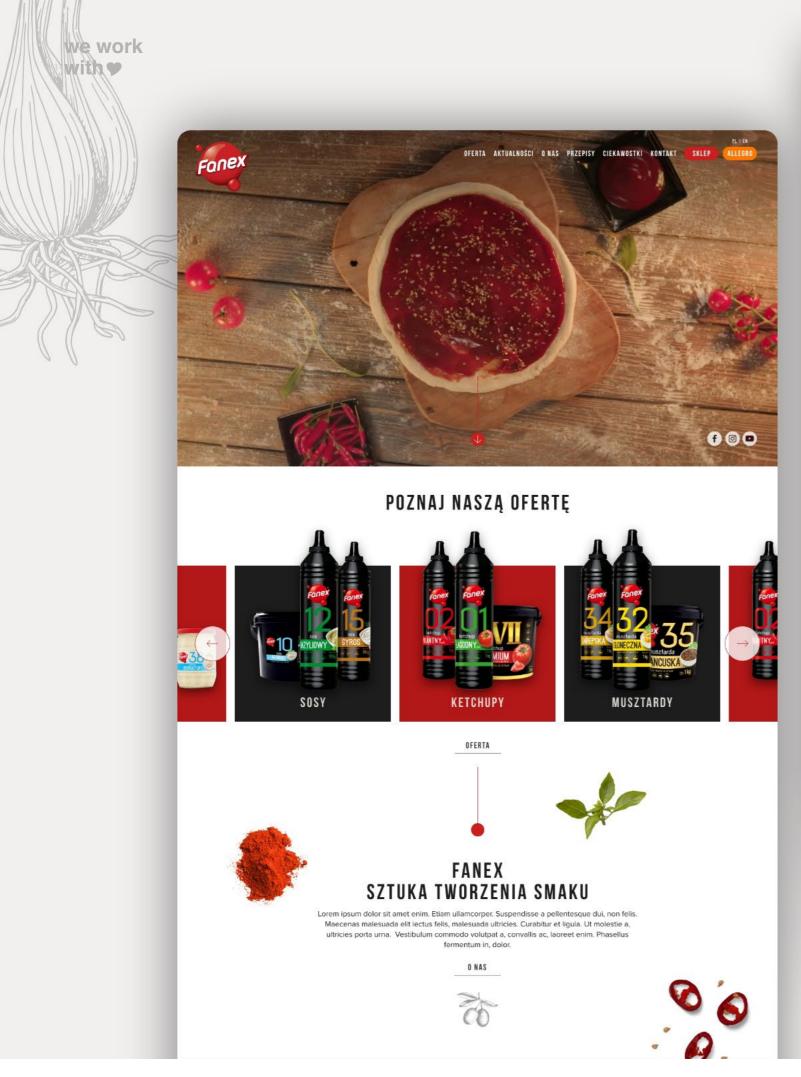

Fanex The Art of Creating Taste

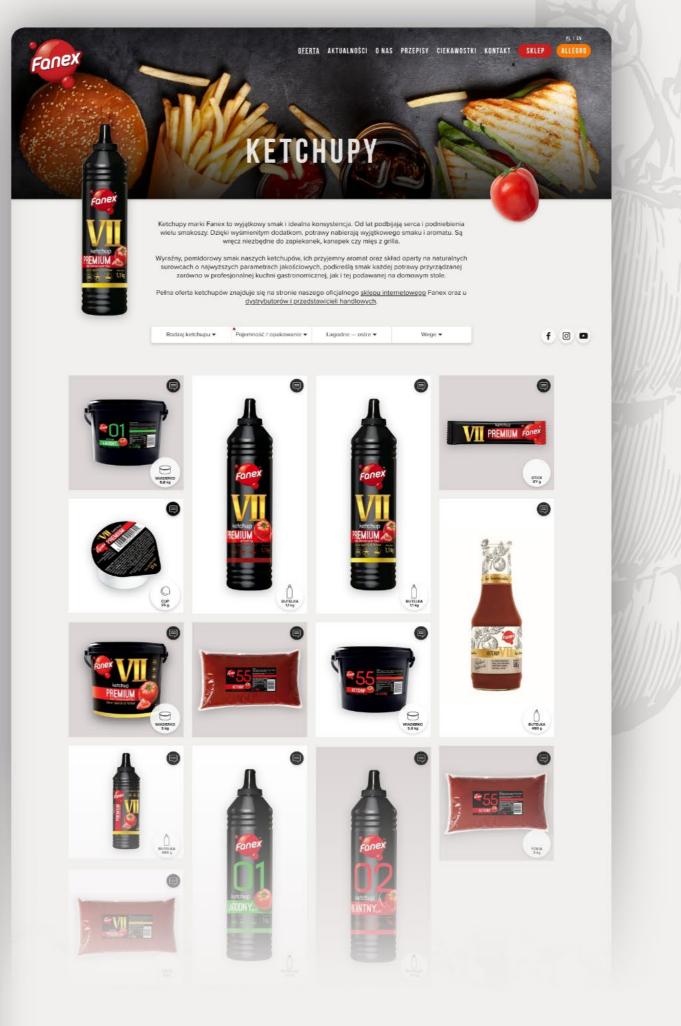

Fanex is a Polish family company with over 30 years of tradition. They specialize in the production of sauces, spices and many gastronomic additives for the broadly understood HoReCa industry. We are glad that we created a website for them. Bon appétit for everyone!

Orange Foundation

The Orange Foundation is one of the most dynamically operating non-governmental organizations in Poland. For almost 15 years, it has been encouraging young people to creatively participate in culture and build a knowledge-based society. Since 2017, we have been helping the Foundation to implement the #SuperCoders program. We maintain the website and the app for over 300 schools from all over Poland involved in the project.

hello@noinputsignal.com | +48 530 929 039

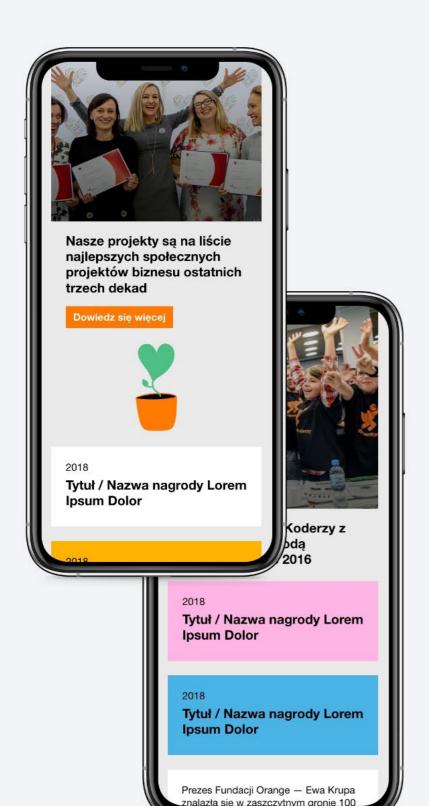

Prezes Fundacji Orange — Ewa Krupa znalazła się w zaszczytnym gronie 100 osób, które w wyraźny sposób przyczyniają się do podnoszenia umiejętności cyfrowych w Polsce. Zestawienie stworzyło Szerokie Porozumienie na Rzecz Umiejętności Cyfrowych.

Lesson: Enter

Lesson:Enter is a digital education project aimed at the teachers and managers of primary and secondary schools, under which free training courses are provided. Teachers will learn how to change the way they conduct their lessons so that they engage students more and develop in them the ability to think critically and creatively and team working. Lessons that put the student in the first place, allowing to gain knowledge through own experience and research, with the help of generally available digital tools, programs and applications.

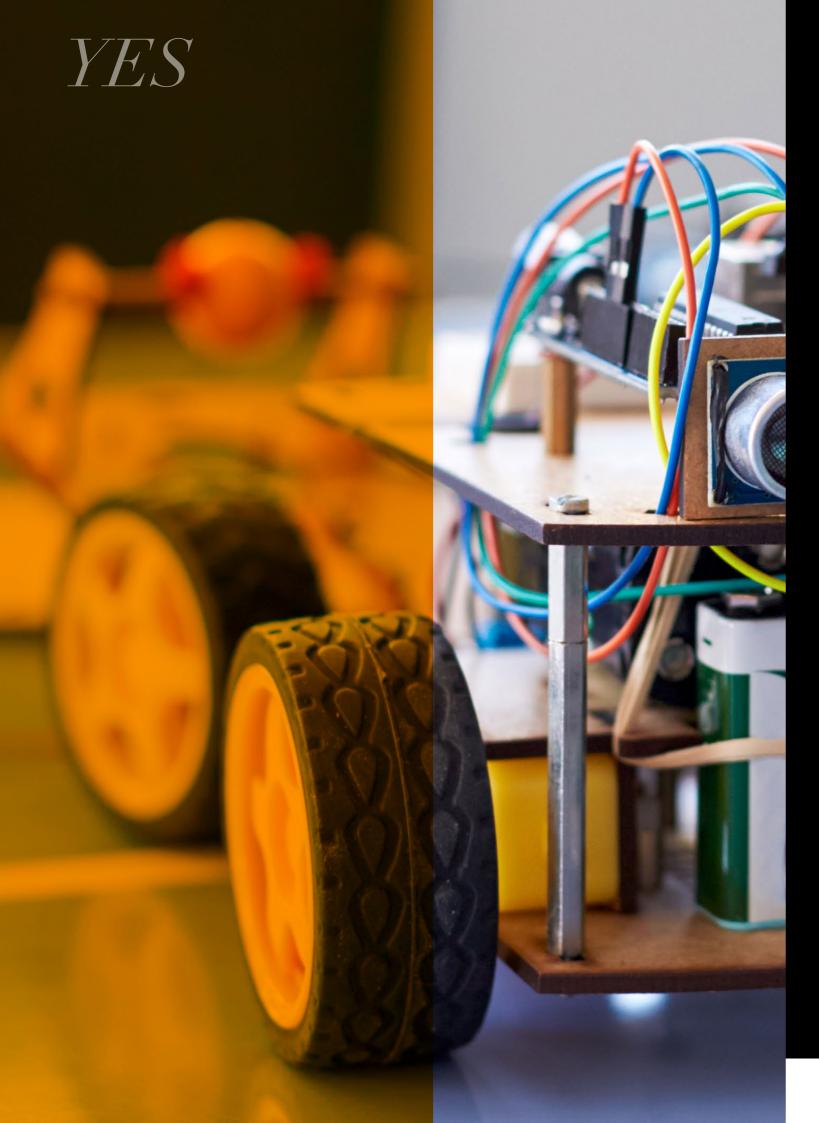

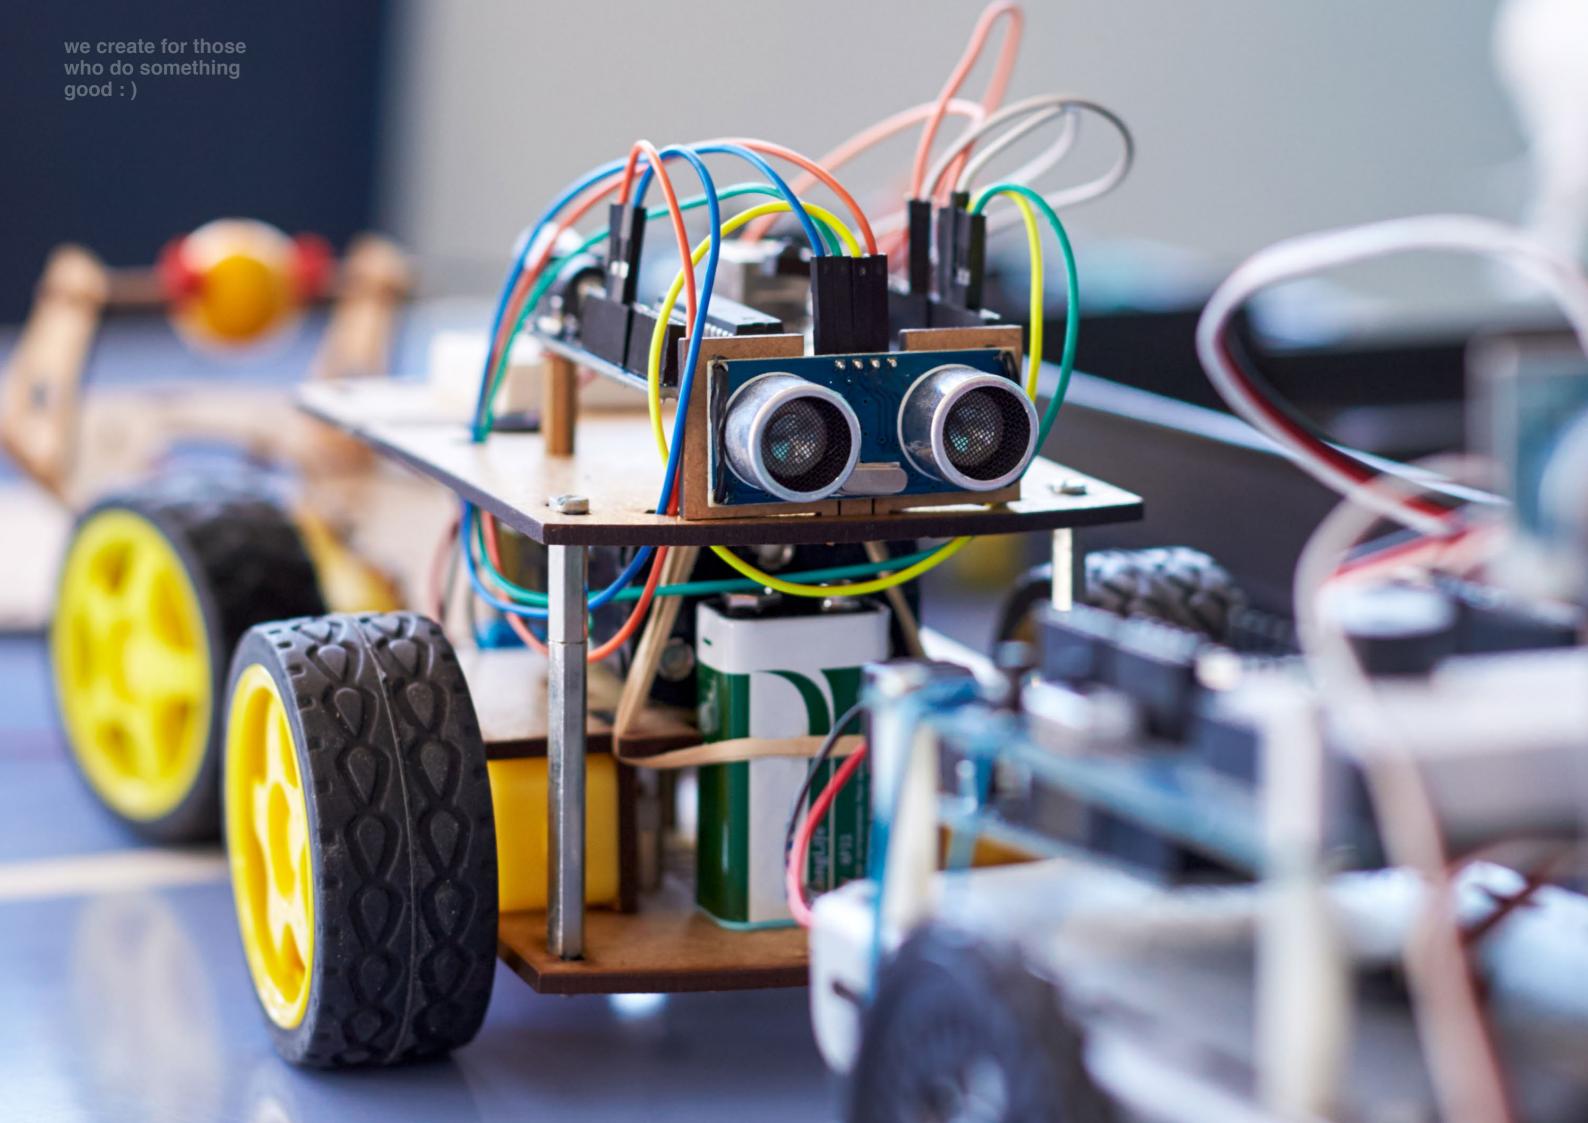

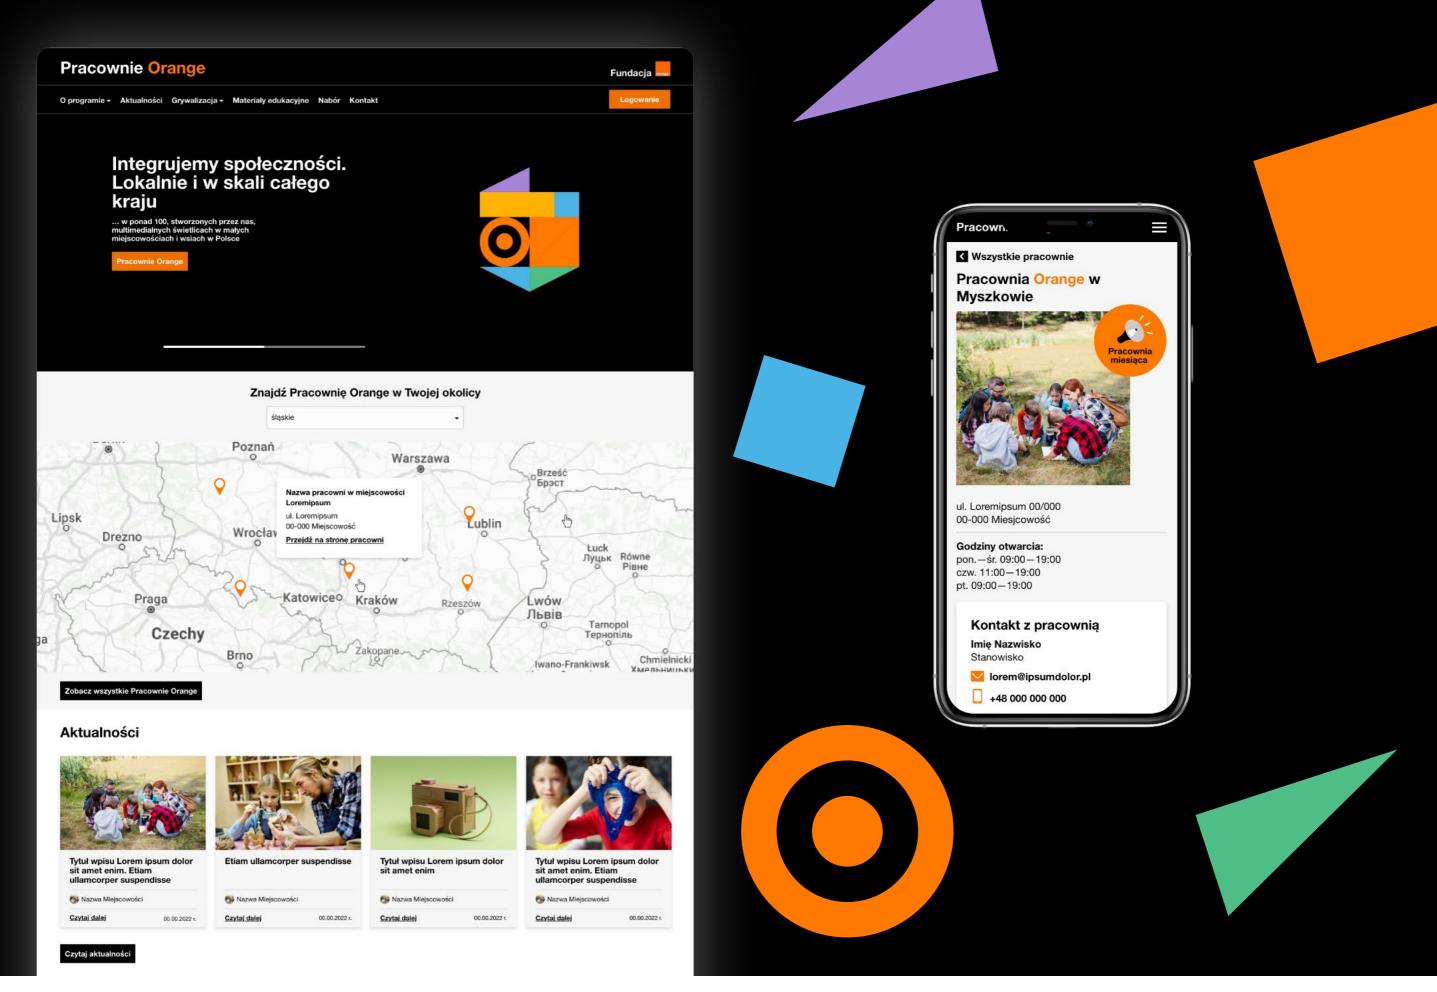

Orange Studios

A nationwide social program under which the Orange Foundation establishes and helps to run multimedia clubs in small towns and villages. In this way, we provide better access to technology, we strengthen their digital competences and create space for joint activities. We educate and inspire together!

Mitsubishi Stories

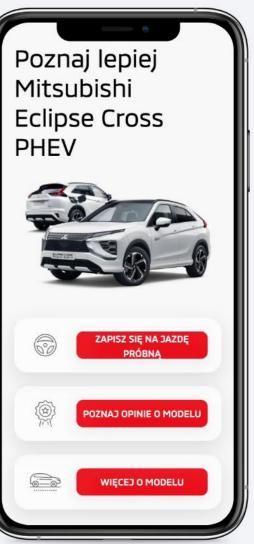

Mitsubishi appears where passion and commitment fuel unique stories from which to draw knowledge and inspiration. With Mitsubishi Stories, we accompany interesting people on their spontaneous or long-planned adventures.

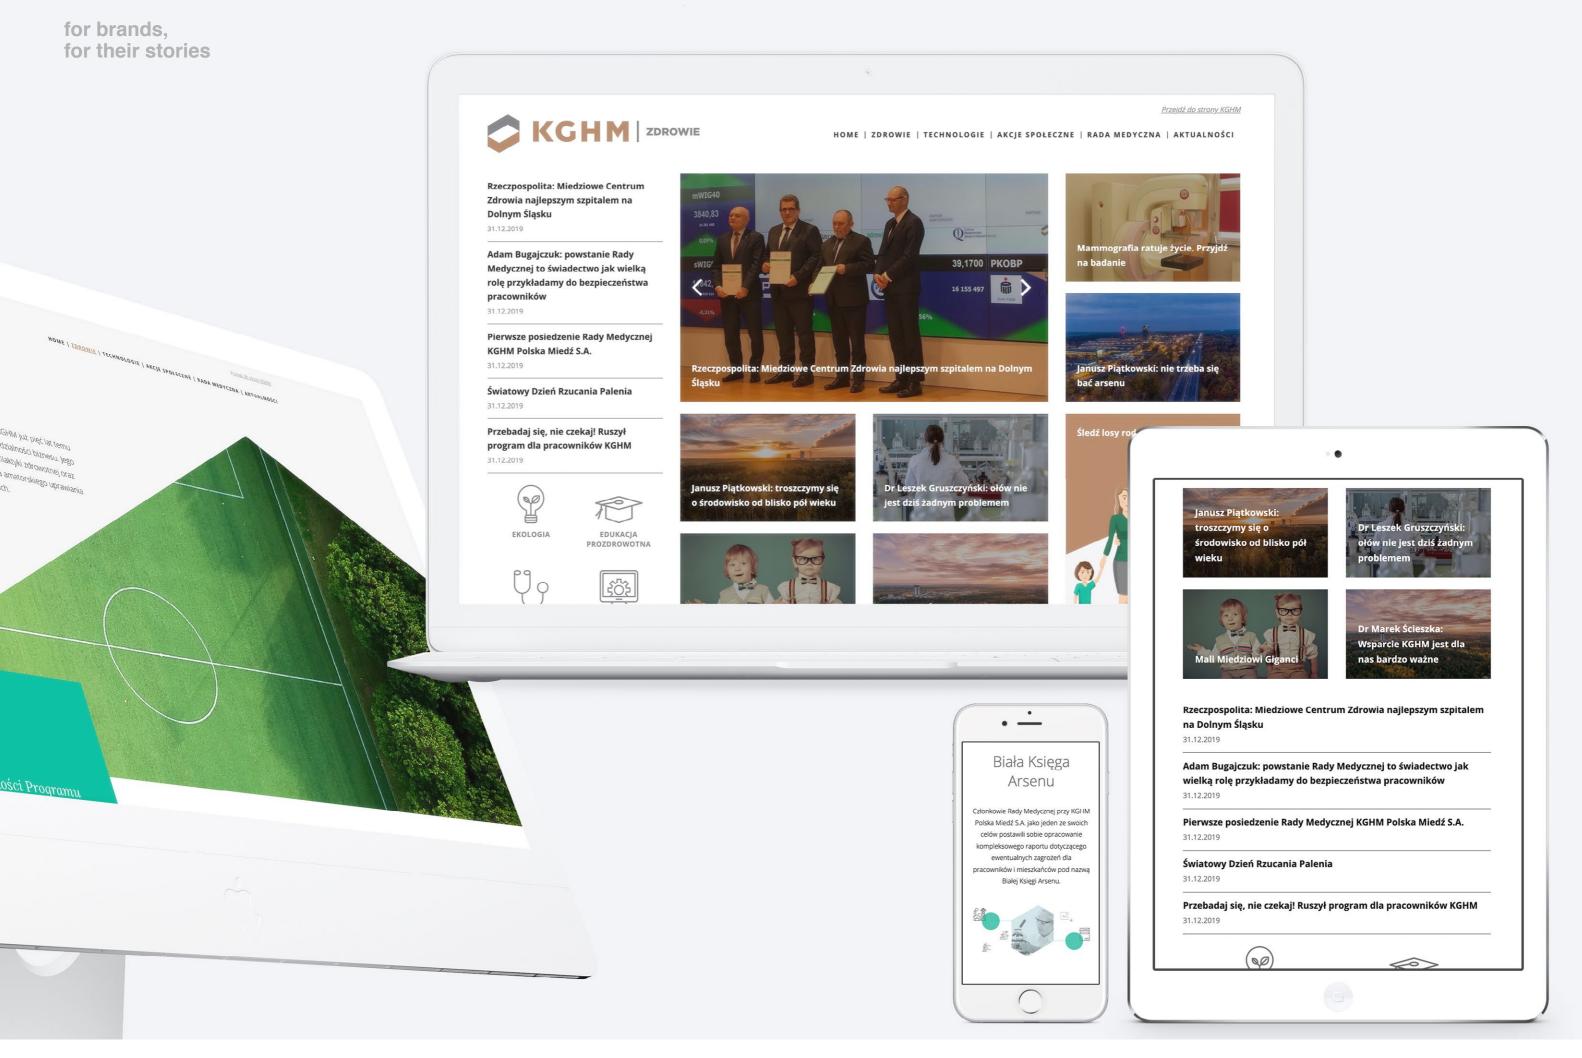

KGHM

This is another project carried out for the Copper Giant. We are glad that we were able to support KGHM in the preparation of a web infrastructure informing employees and the local community about the pro-health and pro-ecological policy of the company.

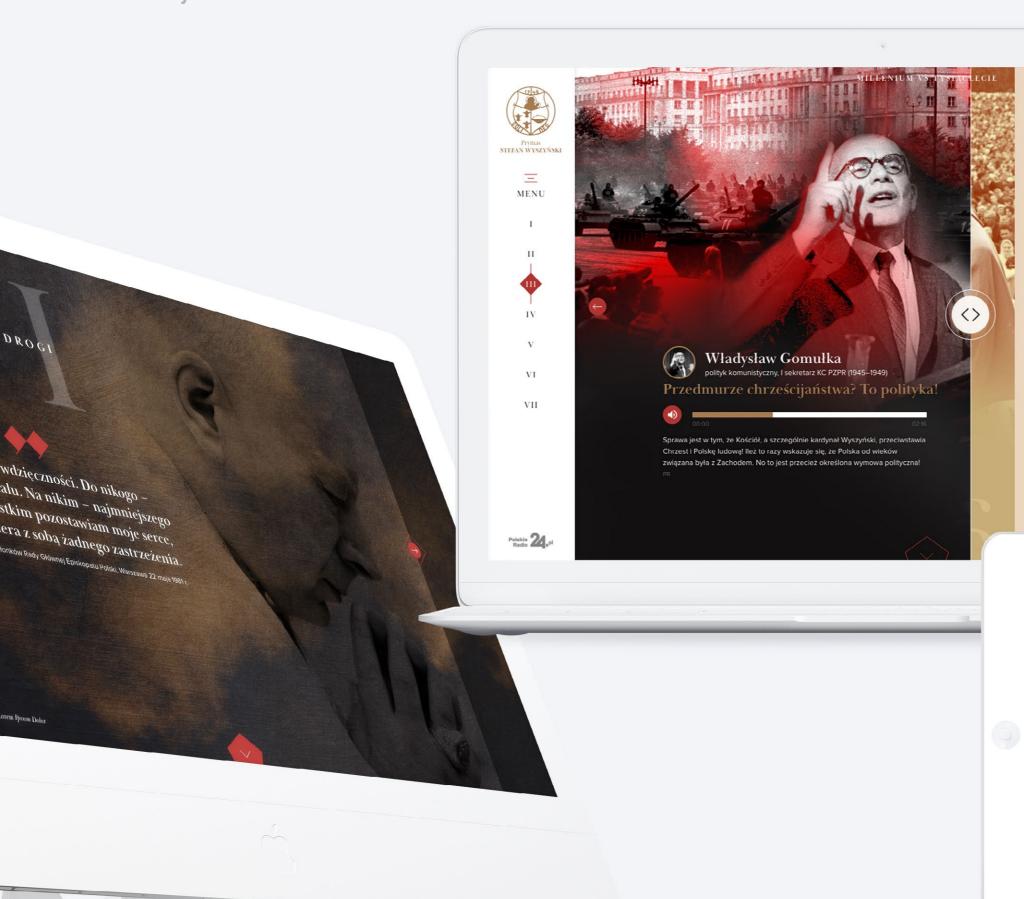

Wyszyński

Stefan Wyszyński was the Primate of Poland, who played a huge role in the fight against communism. He was called the Primate of the Millennium. We told a virtual story about his legacy with hundreds of photos, audio and video materials.

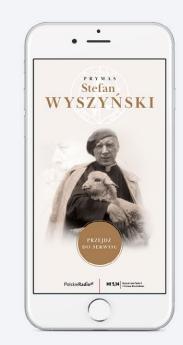

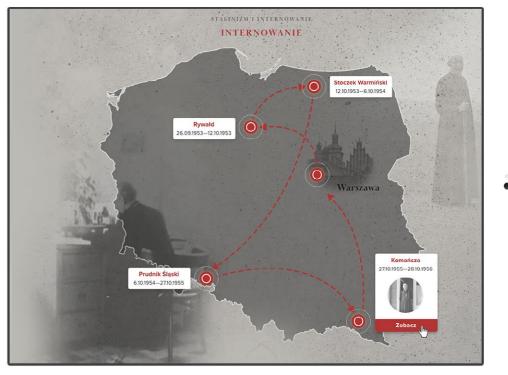

Program obchodów milenijnych został oficjalnie zapoczątkowany 26 sierpnia 1956 roku wraz ze złożeniem Jasnogórskich Ślubów Narodu Polskiego, jednak ich kulminacja przypadła na rok 1966. Obchody millenijne miały charakter przede wszystkim religijny, ale episkopat zdawał sobie sprawę z ich politycznego odbioru w oczach władzy komunistycznej. Program obchodów tysiąclecia chrztu narodu polskiego udowadniał przywiązanie polskiego społeczeństwa do Kościoła katolickiego. Komuniści postanowili konkurować z Kościołem i zorganizowali własne obchody tysiąclecia państwa polskiego.

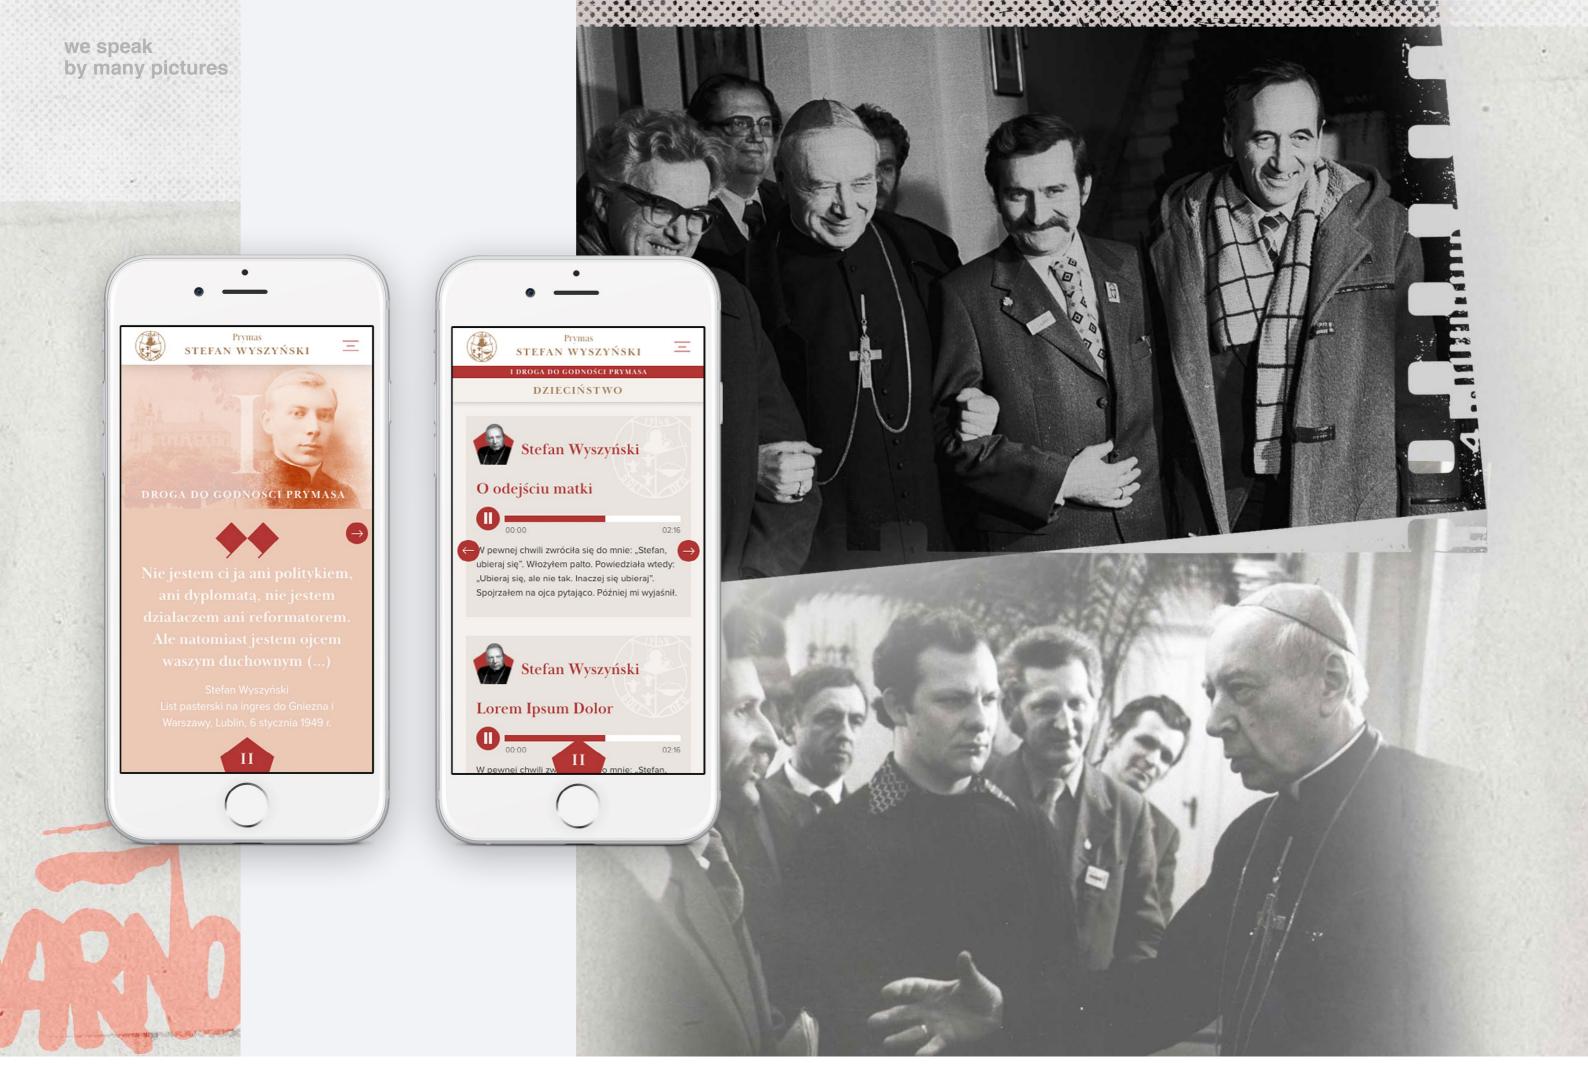

(a)

Kiedy na przełomie 1965 i 1966 roku obchody, zarówno kościelne jak i państwowe, wchodziły w decydującą fazę, władze komunistyczne wzmogły antykościelne akcje propagandowe oraz utrudniały uczestnictwo w kościelnych uroczystościach. 3 maja 1966 roku na Jasnej Górze odbyła się kulminacja kościelnych obchodów, której głównym punktem był akt oddania Polski w macierzyńską niewolę Maryi.

Finałem obchodów państwowych były uroczystości zorganizowane w Gnieźnie i Poznaniu w kwietniu 1966 roku oraz defilada wojskowa w Warszawie 22 lipca 1966 roku.

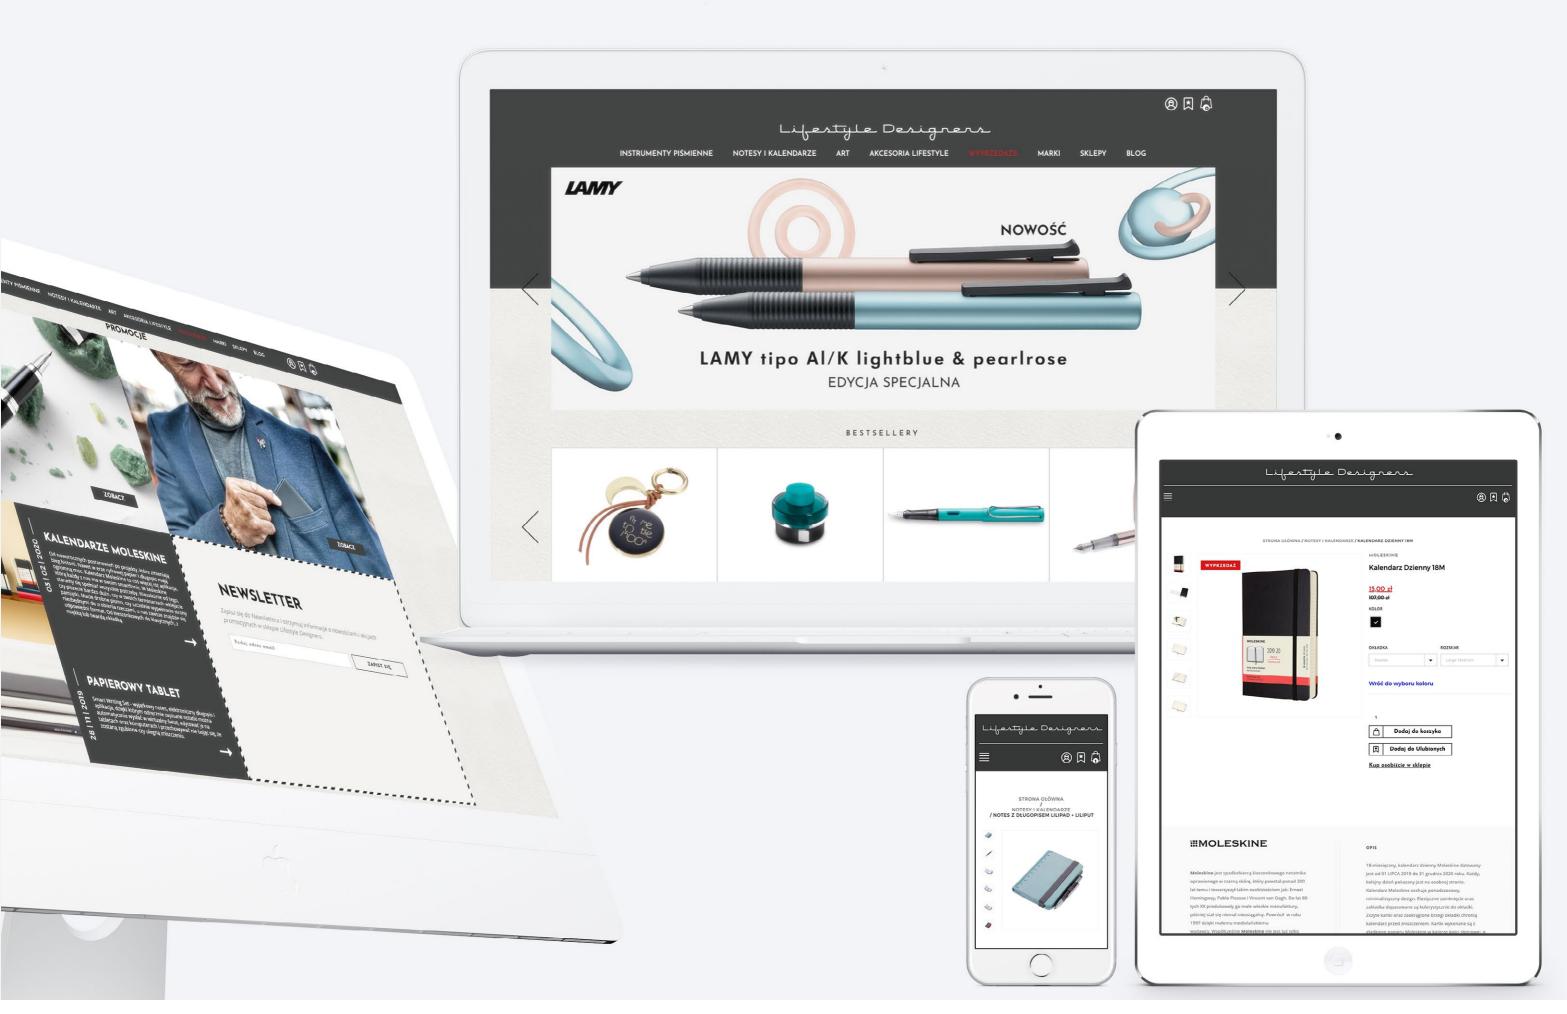

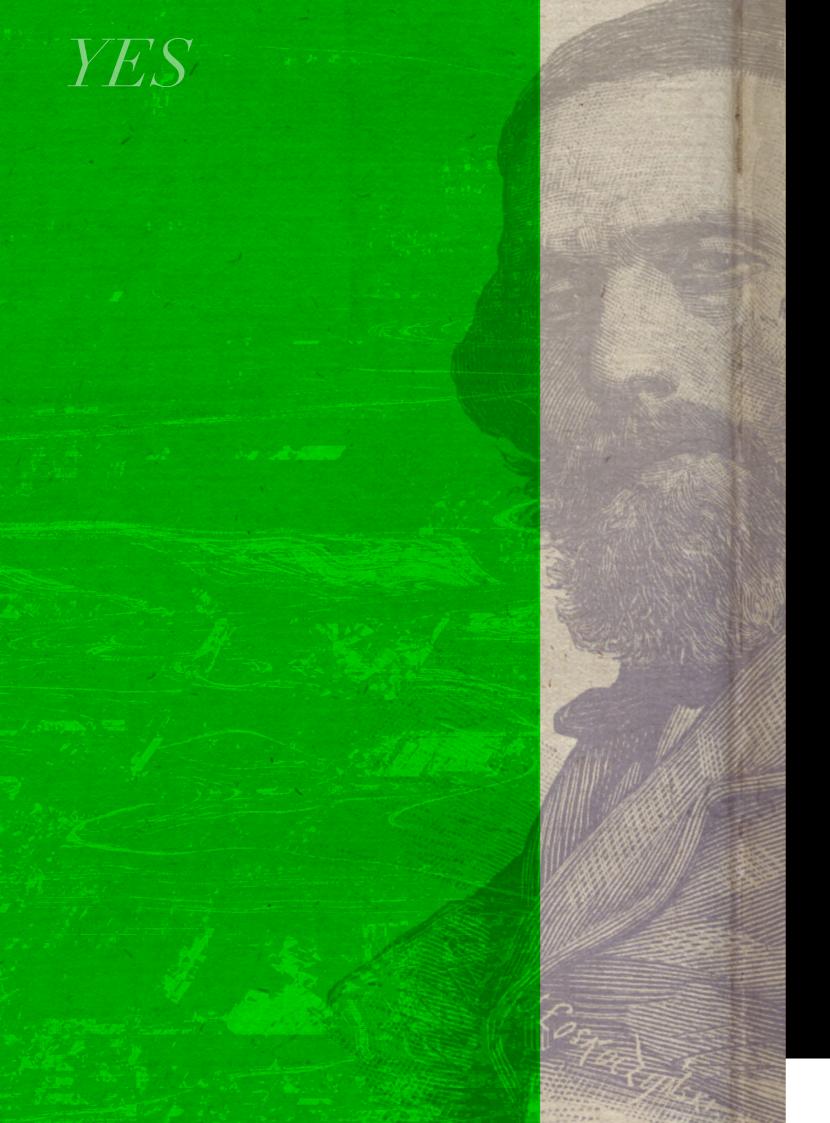

Lifestyle Designers

Lifestyle Designers

The online store of the distributor of the cult notebook "Moleskine" in Poland. The site offers a wide range of designer products from Moleskine, Lamy, Montegrappa and Troika. The store is based on the popular WooCommerce engine, enriched with many of our proprietary solutions. The dynamic elements on the page were written in the React JS library.

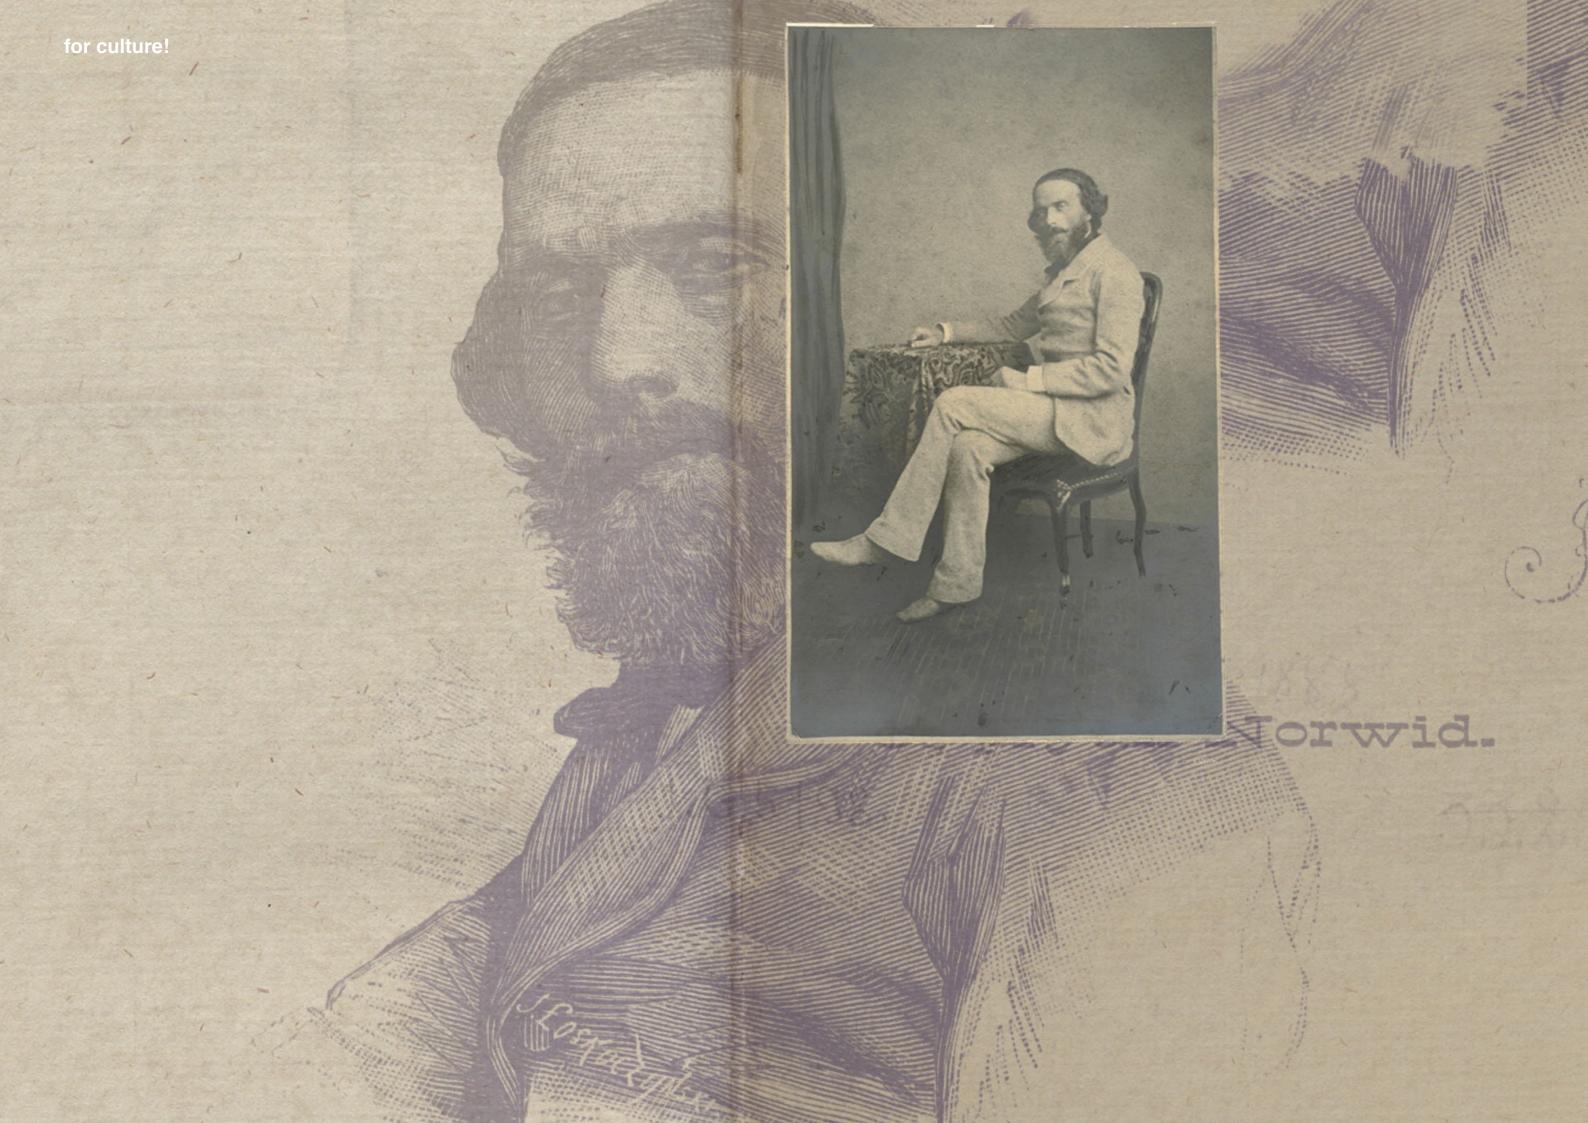

Norwid

Poet, prose writer, playwright and publicist. A cartoonist, sculptor and painter. The artist misunderstood by contemporary, died in poverty and oblivion, discovered again after death. We told a virtual story about his legacy with hundreds of photos, audio and video materials.
